

## Children's Safety Policies

We value your children's safety as a high priority here at Grace Kids. We have policies and procedures in place to ensure your child has a safe and healthy experience while in our care:

- All Grace Kids volunteers are screened, background checked and receive regular training. Background checks are done on an annual basis.
- Two (2) adults must share the supervisory responsibilities of children under the age of 18 years *at all times*.
- Men and unapproved parent helpers are not permitted to change diapers, or accompany children to the restroom.
- We would ask that if your child presents with any of these symptoms below, that you keep them home.
  - Fever greater than 100 degrees F
  - Questionable rashes
  - Coughing
  - Diarrhea
  - Vomiting
  - Sore throat
  - Conjunctivitis (pink eye)
  - Runny Nose (green or yellow discharge)
- All children 4th grade and younger are to be checked in at the Grace Kid's Check-In desk in the gym by their parent or guardian. All children **must have a check-in name tag** to be admitted to a Sunday morning program. Parents, guardians, or older siblings must have a matching security tag to pick up their child.
- If a child's behavior is disruptive or dangerous to other children, and or adult leaders, the child will be removed from the class and the parent will be contacted.
- Parents or guardians must not leave the church grounds while their children are attending Sunday services.
- All volunteers are required to wear masks and try to maintain social distancing in the classrooms.
- We ask that all children from Preschool through 4th grade wear masks in the classrooms. If you have any questions regarding these Children's Safety Policies, please contact the Children's Ministry Director at 330-882-4416.

**Help us keep our Grace Kids and Volunteers healthy!**
